City Council Regular Meeting Agenda*

*Agenda items are shown in bold font. Text not in bold font is explanatory, for the convenience of the reader.

In accordance with Rule 3 of the City Council Rules of Order and Procedure, the following is the agenda and order of business for regular City Council meetings:

1. **Call to order by the Mayor.**
   The Mayor, or in his or her absence the President Pro Tempore, calls the City Council to order to begin the meeting.

2. **Call of the roll.**
   The City Clerk calls the roll of members present beginning with the 1st Ward.

3. **Determination of Quorum.**
   If a quorum is present, the Council may proceed. A quorum consists of the majority of the members of the City Council, including the Mayor. If no quorum is present, the City Council shall, by majority vote of the members present, move to recess or adjourn.

4. **Pledge of Allegiance.**
   The Pledge of Allegiance is recited by the members of the City Council and assembled guests.

5. **Invocation.**
   An invocation is given.

*The committee agendas/reports posted on the Chicago City Council Calendar list the items that may be called for a vote at the City Council meeting and are considered to be part of the City Council meeting agenda.*
6. **Public Comment.**
Members of the general public may address the City Council on subject matters appearing on meeting agenda.

7. **Reports and Communications from the Mayor.**
Reports and communications from the Mayor and City departments are announced into the record by the City Clerk and sent to the appropriate committee unless there is 2/3 vote to Suspend the City Council’s Rules of Order and Procedure and consider them immediately. The Mayor or Presiding Officer may also present resolutions or proclamations.

8. **Communications from the City Clerk.**
The City Clerk apprises the City Council of communications from various departments and agencies that were filed in his or her office from the time of the previous meeting. The City Clerk also notes the publication of the previous City Council Journal and other documents required or requested to be published. Matters submitted to the City Clerk by members of the general public or other entities requiring City Council approval are also introduced and referred to the appropriate committee for deliberation.

9. **Reports of Standing Committees.**
Standing committee chairmen report out to the full City Council the recommendations of the membership on matters under their consideration. Joint committees comprising two or more standing committees also report their recommendations at this time.

**The committee agendas/reports posted on the [Chicago City Council Calendar](link is external) list the items that may be called for a vote at the City Council meeting and are considered to be part of the City Council meeting agenda.

10. **Reports of Special Committees.**
Special committee chairmen present their reports. Special committees are created by resolution adopted by 2/3 affirmative vote of the aldermen entitled by law to be elected.

11. **Agreed Calendar.**
Non-controversial resolutions honoring or paying tribute to individuals or organizations or ceremonial in nature are considered under the Agreed Calendar and on recommendation of the Chairman of the Committee on Finance, they are voted upon as a group by the full City Council. The Agreed Calendar is also commonly referred to as the Consent Calendar.
12. **Presentation of petitions, communication, resolutions, orders, and ordinances introduced by Aldermen.**

The City Clerk will "Call the Wards" and read into the record new legislative proposals (ordinances, orders, petitions, resolutions, or other original matters) introduced by aldermen on a variety of topics including but not limited to Municipal Code amendments, traffic regulations, zoning matters, licensing requirements, etc. The order of presentation alternates each meeting beginning with the 1st Ward on one meeting, then the 50th Ward on the next succeeding meeting, and so forth.

Under City Council Rules, all legislative matters introduced are automatically referred to a City Council Committee without debate, unless there is a 2/3 vote of the members (34 votes are required) to suspend the rules to allow immediate consideration of the matter in question.

Matters may be referred to a Joint Committee for consideration; however, if two or more committees are called, the subject matter is referred, without debate, to the Committee on Committees, Rules and Ethics.

13. **Correction and approval of the Journal of the Proceedings of the last preceding meeting or meetings.**

Corrections to the Journal of Proceedings are presented and referred to the Committee on Committees, Rules and Ethics for review. The Chairman of the Committee on Finance will also recommend that the full City Council approve of the Journal(s) of the last preceding regular meeting, as corrected, as well as any special meetings which occurred from the time of the last City Council meeting.

14. **Unfinished Business.**

Aldermen may request that the City Council call up for consideration previously deferred items. Notification of intentions to consider such matter(s) must be given to all aldermen and must clearly identify the item intended to be called up for a vote.

15. **Miscellaneous Business.**

At this point in the meeting, any alderman may motion to discharge a committee from further consideration of a matter which has been pending in committee for more than 60 days. The motion to discharge requires a majority vote of all aldermen (26 votes are required).
16. **Ordinance setting the next regular meeting.**
   An ordinance is presented setting the date and time of the next regular meeting of the City Council. If no meeting date is set, then in accordance with the Municipal Code, the regular meeting shall be held at 10:00 a.m. of every second and fourth Wednesday of each calendar month.

17. **Roll call on omnibus.**
   An omnibus vote is a single roll call vote taken and applied to all items not voted upon separately, or for which another vote was not employed during the course of the meeting.

18. **Adjournment.**
   If no further business is to be considered and the meeting is concluded, then a motion is made to adjourn.

<td>West 55th Street and South Tripp Avenue; Two Way Stop Sign, Stopping east and westbound traffic on West 55th Street at South Tripp Avenue. Not Recommended. West 55th Street is a major collector roadway with significantly higher traffic volumes that South Tripp Avenue, a One Way northbound local street. Stop signs on streets with higher volumes such as West 55th Street tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Additionally, due to this intersection's proximity to the traffic signal at West 55th Street and South Keeler Avenue, a Stop Sign at South Tripp Street will be unexpected for drivers. Therefore, CDOT does not recommend an All Way Stop Sign at this intersection -- (18-02280936) [Or2018-386]</td>

<td>South Princeton Avenue and West 93rd Place; All Way Stop Sign. Not Recommended. West 93rd Place intersects South Princeton Avenue at a T-intersection and terminates at a cul-de-sac just southeast of the intersection. Traffic volumes on South Princeton Avenue are higher than volumes on West 93rd Place, a local residential street. Stop Signs on streets with higher volumes such as South Princeton Avenue tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Stop compliance is particularly low at T-intersections. Therefore, CDOT does not recommend an All Way Stop Sign at this intersection -- (18-02284256) [Or2018-348]</td>

<td>West Jackson Boulevard and South Sangamon Street; Stop Sign, Stopping eastbound traffic on West Jackson Boulevard at South Sangamon Street. West Jackson Boulevard is a major collector roadway with significantly higher traffic volumes than South Sangamon Street a local roadway. Stop Signs on streets with higher volumes such as West Jackson Boulevard tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Additionally, the 25th Ward has recently funded two curb extensions on the west leg of West Jackson Boulevard at South Sangamon Street. These bump-outs should improve pedestrian safety by narrowing the crossing distance across West Jackson Boulevard. Therefore, CDOT does not recommend an All Way Stop Sign at this location. The funded curb extensions at this intersection will improve pedestrian visibility and safety -- (18-02284195) [Or2018-377]</td>

WARD TRAFFIC WARNING SIGNS AND/OR SIGNALS:

25 West Madison Street and North Carpenter Street; Stop Sign, stopping west and eastbound traffic on West Madison Street at North Carpenter Street. Not Recommended. West Madison Street is a minor arterial roadway with significantly higher traffic volumes than North Carpenter Street, a local roadway. Stop on streets with higher volumes such as West Madison Street tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Stop compliance is particularly low at T-intersections. Additionally, due to this intersection's proximity to the traffic signal at West Madison Street and West Morgan Street, a stop sign at North Carpenter Street will be unexpected for drivers. Therefore, CDOT does not recommend an All Way Stop Sign at this intersection -- (18-02285512) [Or2018-376]

25 West Jackson Boulevard and South Sangamon Street; Stop Sign, Stopping eastbound traffic on West Jackson Boulevard at South Sangamon Street. West Jackson Boulevard is a major collector roadway with significantly higher traffic volumes than South Sangamon Street a local roadway. Stop Signs on streets with higher volumes such as West Jackson Boulevard tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Additionally, the 25th Ward has recently funded two curb extensions on the west leg of West Jackson Boulevard at South Sangamon Street. These bump-outs should improve pedestrian safety by narrowing the crossing distance across West Jackson Boulevard. Therefore, CDOT does not recommend an All Way Stop Sign at this location. The funded curb extensions at this intersection will improve pedestrian visibility and safety -- (18-02284195) [Or2018-377]

25 West Madison Street and North Aberdeen Street; Stop Sign, Stopping west and eastbound traffic on West Madison Street at North Aberdeen Street. Not Recommended. West Madison Street is a minor arterial roadway with significantly higher traffic volumes than North Aberdeen Street, a local roadway that is offset at West Madison Street. Stop Signs on streets with higher volumes such as West Madison Street tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Stop compliance is particularly low at T-intersections. Therefore, CDOT does not recommend an All Way Stop Sign at this intersection -- (18-02284598) [Or2018-378]
WARD TRAFFIC WARNING SIGNS AND/OR SIGNALS CONT’D:

25 West Madison Street and North May Street; Stop Sign, Stopping west and eastbound traffic on West Madison Street at North May Street. Not Recommended. West Madison Street is a minor arterial roadway with significantly higher traffic volumes than North May Street, a local roadway. Stop Signs on streets with higher volumes such as West Madison Street tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Stop compliance is particularly low at T-intersections. Additionally, due to this intersection’s proximity to the traffic signal at West Madison Street and West Racine Avenue, a Stop Sign at North May Street will be unexpected for drivers. Therefore, CDOT does not recommend an All Way Stop Sign at this intersection -- (18-02284639) [Or2018-379]

8 East 89th Street and South Cottage Grove Avenue; All Way Stop. Not Recommended. South Cottage Grove Avenue is designed as a minor arterial roadway with significantly higher volumes than East 89th Street, a one way eastbound residential street. Stop signs on streets with higher volumes such as South Cottage Grove tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. CDOT does not recommend installing an All Way Stop at this intersection -- (18-02054308) [Or2018-306]

13 West 64th Place and South Austin Avenue; All Way Stop Sign, Stopping All Approaches. Not Recommended. South Austin Avenue is a major collector roadway with significantly higher traffic volumes than West 64th Place, a local roadway. Stop Signs on streets with higher volumes such as South Austin Avenue tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Therefore, CDOT does not recommend an All Way Stop Sign at this intersection -- (18-02280452) [Or2018-387]

13 West Marquette Road and South Komensky Avenue; Stop Sign, Stopping east and west traffic on West Marquette Road at South Komensky Avenue. West Marquette Road is a major collector roadway with significantly higher volumes that South Komensky Avenue, a one way northbound local street. Stop signs on streets with higher volumes such as West Marquette Road tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop. Due to the intersection's proximity to the traffic signal at South Pulaski Road, a stop sign will be unexpected for motorists. Therefore, CDOT does not recommend an All Way Stop at this intersection. West 93rd Place intersects South Princeton Avenue at a T-intersection and terminates at a cul-de-sac just southeast of the intersection. Traffic volumes on South Princeton Avenue are higher than volumes on West 93rd Place, a local residential street. Stop Signs on streets with higher volumes such as South Princeton Avenue tend to increase rear-end crashes, increase congestion, and create a false sense of security for pedestrians that every vehicle will stop.
